

FIT EVAL

CREATE FIT EVALUATION

Fit evaluation captures each fit sample round. Fit evaluation must be created at the same time the POM page is created for accurate fit tracking and reporting.

1. Navigate to POM page.
2. Once POM page is complete, go to More Actions > Create Fit Eval **OR** click the hot key at the top.

3. Once fit eval is created, rename the fit eval in the POM Page description field. Use same naming convention as POM page description.
