

OVERVIEW PAGE

SMART COPY FROM AN EXISTING TECH SPEC

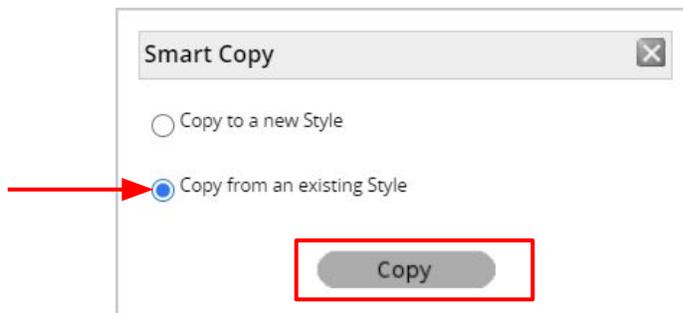

Smart copy from an existing tech pack gives the ability to copy information from a previous tech pack into a current tech pack.

WARNING: When Smart Copying a POM page, if a vendor was previously assigned to a POM page only the assigned vendor will have access to the POM page. To give access to another vendor the information must be deleted.

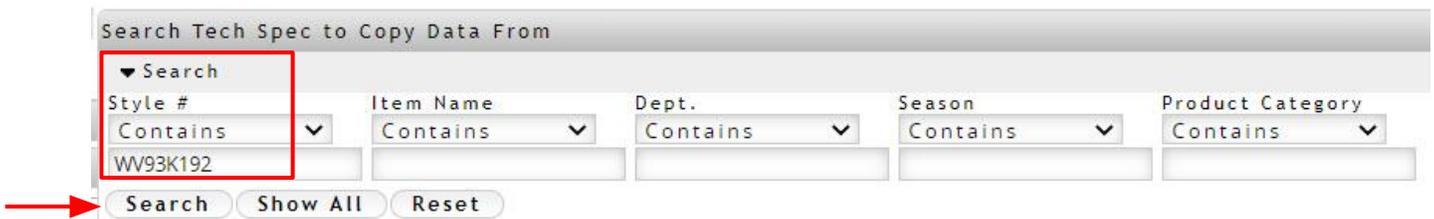

1. Navigate to the current tech pack that information will be copied into. Click More Actions > Smart Copy **OR** click the hot key at the top.

2. The Smart Copy window will appear. Click Copy from an existing Style > Copy.

3. The Search Tech Spec to Copy Data From window will appear. Type ahead in the Style # field to search for a previous style number that information will be copied from.
4. Click Search.

5. The Style # search list will appear. Double click on the style number to open.
