BACKGROUND

Celebrating 24 years of excellence in the field of garment accessory manufacturing, Union International Accessories (PVT) Ltd and M Y & Union HK Ltd are names synonymous with quality and consistent delivery. Specializing in the manufacture of a variety of polyester and metal accessories, the Company owns state-of-the-art manufacturing plants in Bangladesh, China & Sri Lanka. By employing the services of over 400 service personnel, their impressive string of global clientele is serviced through sales offices in the USA, Hong Kong (Head Office), Australia, China, India, Sri Lanka, Bangladesh, Indonesia, Vietnam, Pakistan & Ethiopia. With proven expertise that expands over two decades, the Company holds a commanding position within the garment accessory manufacturing field. With vast industry knowledge and an impressive network of contacts that range from leading brands, manufacturing vendors to buying offices around the globe; M Y & Union has thus evolved into one of the pioneering players of the industry.

WHY CHOOSE US

We at M Y & Union always strive to set ourselves apart from our competitors. We have our state-of-the-art Machineries from Italy, Taiwan and China, with in-house testing Lab facilities. A Research and Development facility based in Italy, through which we are bringing out innovative and efficient products to the Industry, such as our Intelligent Painting Machine Series. We believe to be the first to introduce Sustainable and Eco-Friendly range through the process of our innovative Plasma Sputtering (Vacuum Plating) from Italy for metal trims.

Our main objective is to minimize the environmental impacts of our products over their whole life-cycle. We believe to be the first in South-East Asia to give our clients the opportunity to be a part of the Global Green movement that is going to be the future of the apparel industry. We have a responsibility towards the environment. We wish to contribute to a more sustainable industry and thus a more sustainable future.

Sustainable products include: Metal Trims (Jean Buttons, Snaps, Rivets, Badges and Sew-On-Shank) and Recycled Polyester Buttons (Initation Horn, Chalk and Pearl Buttons with 5%-30% recycled material). All of this achieved without compromising on the quality and price of our product range.

The Organization is also up-to-date with all the industry standards, being RSL Approved for its recycled buttons, along with scoring 96%, the highest in the world for The Trim Supplier Qualification Process (TQP). We invite you to be a part of this revolutionary future!

ADVANTAGES OF WORKING WITH US

01. Branches around the world and most importantly close to the most famous manufacturing locations makes easier for buyers to work as they have to give us only one approval and goods will be shipped in a consistent quality to all vendor countries.
02. We maintain stock for sampling at all branch locations which makes it very convenient for buyers for making samples.
03. All Products are Nickel free, lead free (below customer requirements), ferrous free and we make sure we are updated with the new regulations imposed by the western countries, most importantly the EU, UK and USA.
04. All our Metal and Polyester products are Class 1 Oeko-Tex Certified which allows us to even supply to Kids.
05. Strong Technical Team providing round-the-clock support to all our customers. Outstanding R&D Department which collaborate regularly with the finest R&D Teams around the Globe; including Italy, Turkey and Taiwan, that consistently bring out new innovations to the Market.

www.union-myco.com

06. We visit all our buyers every season presenting our new product range. This makes it easy for buyers to know the new trends in the market. We acquire a team of 20 designers at our factories who consistently keep making new designs.

07. We provide our technical comments during sampling and production. We ensure that all mockups are received and analyzed by means of releasing approved Datasheets and GCR to the vendors on time before goods are dispatched or before bulk production commences.

08. We provide free moulds and samples for all loyal buyers. In addition to the above, we ship samples Free Of Charge to long-term vendors around the world.

09. A computerized database consisting of more than 10,000 items is in place which makes it easy for buyers to get what they want. Our sales team will always provide similar samples which we have in stock allowing buyers to have a variety of accessories to select from.
