DASH By KOHL'S

VENDOR TRAINING

What is DASH?

DASH is our Digital Asset Sharing Hub!

A place to collaborate with vendors by sharing large 3D files as we develop our products

DASH is for..

- *Working 3D Browzwear Files of Pre-Development, Counter and Color Run Samples*
- *Digital materials such as u3ma files*
- *Not for 2D Engage Level Samples!*

In DASH, you can..

- *Share Large 3D Files*
- *Directly Link to 3D Files*
- *Storage of 3D Files*
- *Library of 3D Materials*

DASH is used by..

Collaborate Designers

Collaborate Technical Designers

Collaborate Vendors

Product Design Timeline

Line Final

Receive Color Run Vendor 3D Sample file and download from DASH

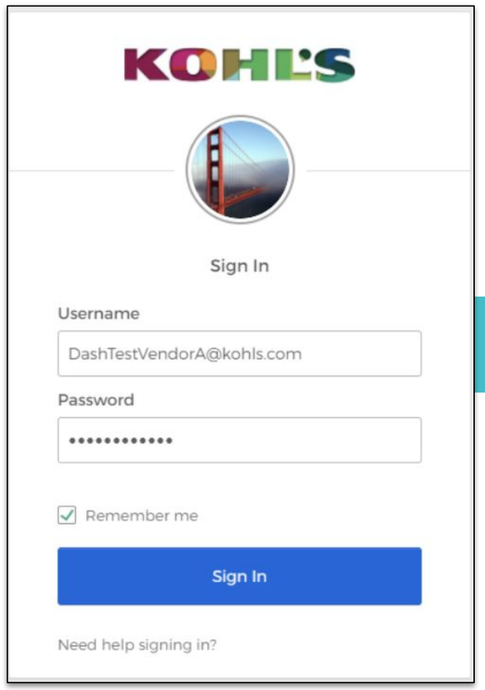
✳ Please Note:

Kohl's Team should be requesting a working Browzwear file in the Sample Request Comments

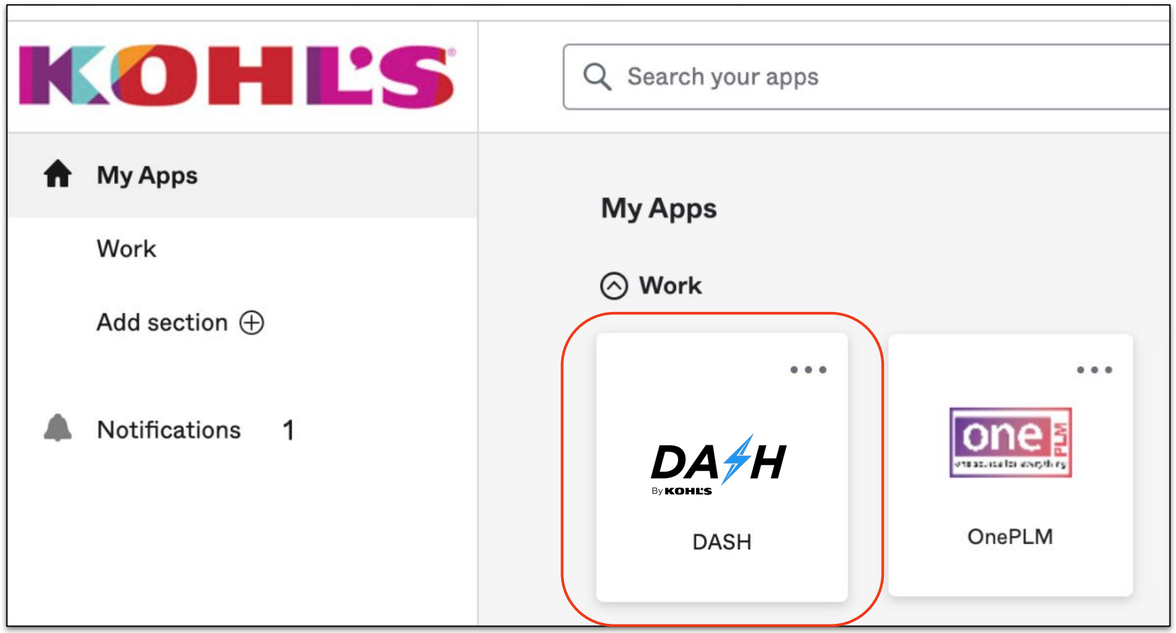
Accessing DASH

Find DASH in Okta Links Page…

https://kohls-vendor.okta.com/



Log into OKTA



Search for DASH or Locate in Applications

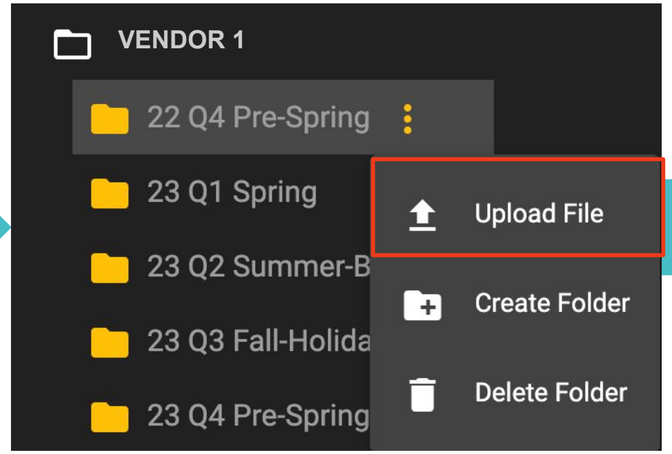
Sample Comment Process

Review Comments

Vendor reviews comments and attachments in OnePLM. If teams states the 3D working file has updates, please review in DASH.

Update 3D Sample

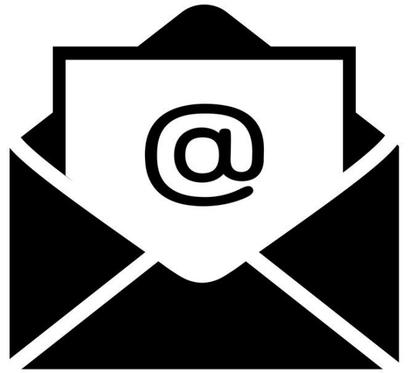
Vendor makes updates in 3D file based on sample comments.



Upload Updated 3D File

Vendor adds file to DASH so Kohl's team can access new file.

Please be sure to follow the DASH file naming convention. Be sure to update your file version or you will receive a notice to overwrite the previous one!



Send Communication to Kohl's Teams

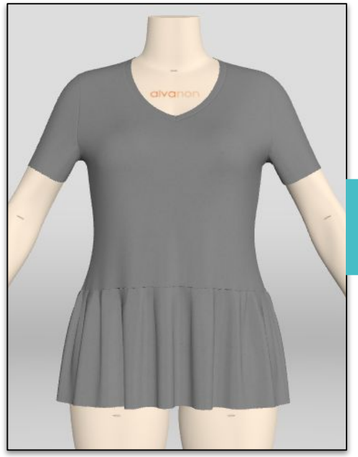
Email the Kohl's team to communicate when new files or versions of files are uploaded to DASH.

Adding sharable link to the file directly is a helpful but optional step.

Sample File Versions

Workflow Example

Kohl's Design Team sends Pre-Development Inspiration to the Vendor
**** Not through DASH ****
Use OnePLM or current process!

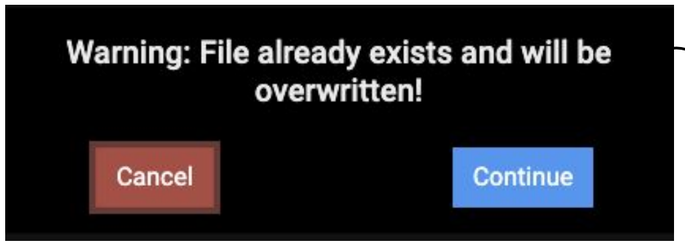


WS01K000-pre-v1.bw
Vendor sends first 3D Pre-Development Sample to Kohl's Design Team. This file would be labeled "V1" for Version 1.

WS01K000-pre-v2.bw
Kohl's Design Team sends counter comments and image attachments via onePLM. Kohl's will upload working file to DASH if any file edit need to be shared.

WS01K000-pre-v3.bw
Vendor sends second 3D Pre-Development Sample with updates based on comments in the 3D file to Kohl's Design Team. This file would be labeled "V2" for Version 2. Unless Kohl's uploaded V2, then proceed to V3.

Please email your Kohl's team when files are uploaded.

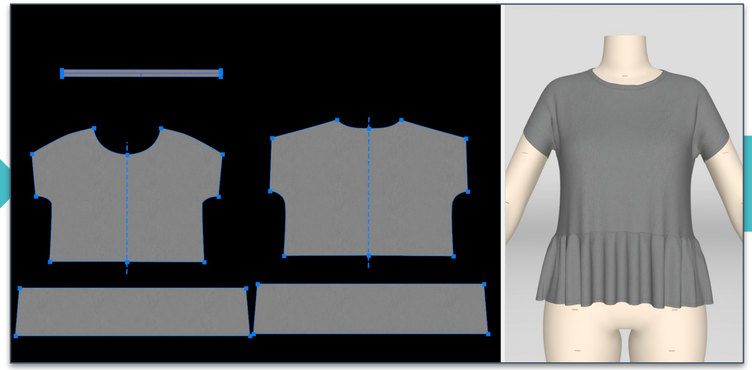


✳**Make sure to update your version!**
If you try to upload a file with the same name and version as the original, you will get this pop-up to confirm before overwriting!

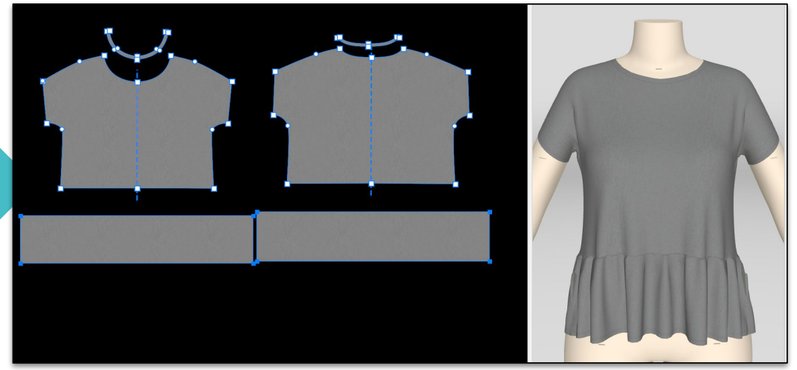
Sample File Naming Standards

Workflow Example

Kohl's Style Handoff



Kohl's Adopted Style Handoff



WS01K000-pre-v3.bw
Vendor sends final 3D Pre-Development Sample with updates based on comments by Kohl's Design Team. The file in this example is labeled "V3" for Version 3.

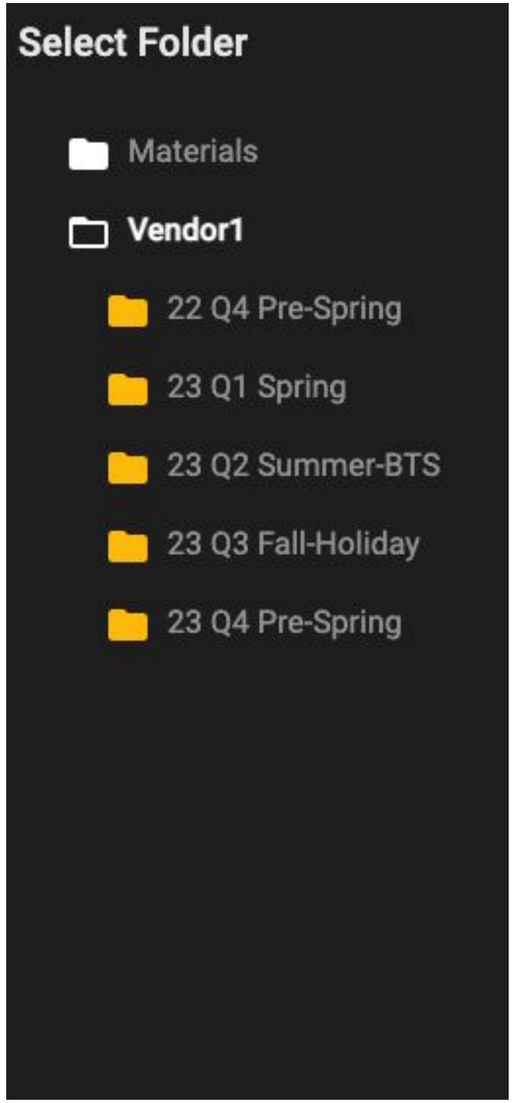
WS01K000-ctr-v1.bw
Vendor sends 3D counter sample based on handoff and counter sample pattern. Once confirmed a physical counter sample is then sent based on this 3D sample.

WS01K000-fit-v1.bw
Kohls Tech Design receives 3D file and physical sample at ASHO. Makes any technical updates needed and sends first version to the Vendor.

SAMPLE TYPE	NAMING CONVENTION
Pre-Development Sample	WS01K000-**pre**-v1.bw
Counter Sample	WS01K000-**ctr**-v1.bw
Color Run Sample	WS01K000-**col**-v1.bw
Fit Sample	WS01K000-**fit**-v1.bw

✳ **Note: These names align with with output standards** You can see them in our standards doc here as well.

Navigating DASH



✳ Materials Folder:
This folder will hold digitized SLT fabrics for use by Kohl's Internal Teams and Vendors!

✳ Vendor Folders:
Vendor team will have access to their own folder.

✳ Season Folders:
Under the vendor folder will be folders by Year/Quarter/Season to organize files into.

✳ Sub-Folders (optional):
Following the season, both Kohl's Internal teams and vendors can create folders as needed. Please keep folder structure understandable for all team members in case roles change or new associates join the team!

Uploading Files to DASH

Point & Click/Process

Note: If you make a mistake!
Reach out to DPC@kohls.com to help delete the file or folder so you can reupload

File Information:
This information should populate from onePLM if the style is already in the system! The video shows how to enter it if it does not populate automatically.

Filename: WS01K000-pre-v3.bw

Style Details:

Style Number: WS01K000

Description: Short Sleeve Ruffle Tee

Season: FA22

Brand: SONOMA

Division: WOMENS

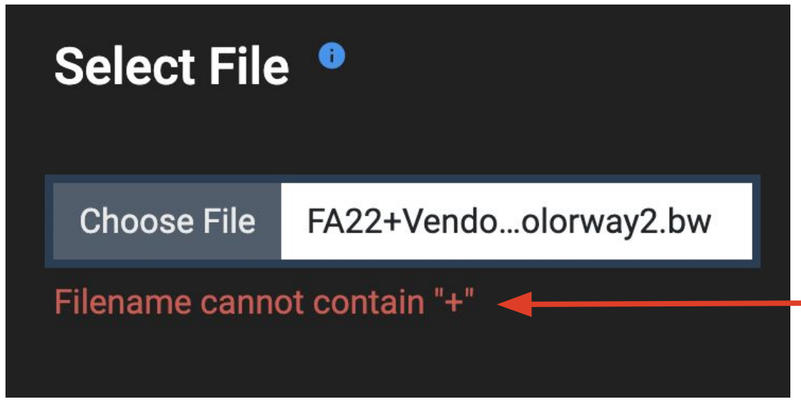
Product Type: TOPS

Sourcing Type: Knit

Sample File Name Dashes

SAMPLE TYPE	NAMING CONVENTION
Pre-Development Sample	WS01K000-pre-v1.bw
Counter Sample	WS01K000-ctr-v1.bw
Color Run Sample	WS01K000-col-v1.bw
Fit Sample	WS01K000-fit-v1.bw

✳ **Note: The dashes are important!**
Dashes between style number, sample type and version are what help the system read the file name correctly. Please be sure to include them when uploading a file.



✳ **Special Characters:**
The following characters do not work in the DASH system: **? & # % < > +**
You will get an error message like this image to the left if you use one of these characters.

Downloading Files from DASH

Point & Click/Process

Sharing Links to Files in DASH

Point & Click/Process

Searching for Files

Point & Click/Process

Search Bar
In the top right search bar the information needs to be very specific. We suggest searching first by style number as shown in the video.

Filter Bar
Within your search results you can then type into the filter bar which can search more general information like “v1” for version 1 or “bw” for the Browzwear file type.

Sample File Naming & Search

SAMPLE TYPE	NAMING CONVENTION
Pre-Development Sample	WS01K000-pre-v1.bw
Counter Sample	WS01K000-ctr-v1.bw
Color Run Sample	WS01K000-col-v1.bw
Fit Sample	WS01K000-fit-v1.bw

✳ **Note: The dashes are important!**
Dashes are what help the system read the file name correctly. Please be sure to include them when using the search bar in DASH.

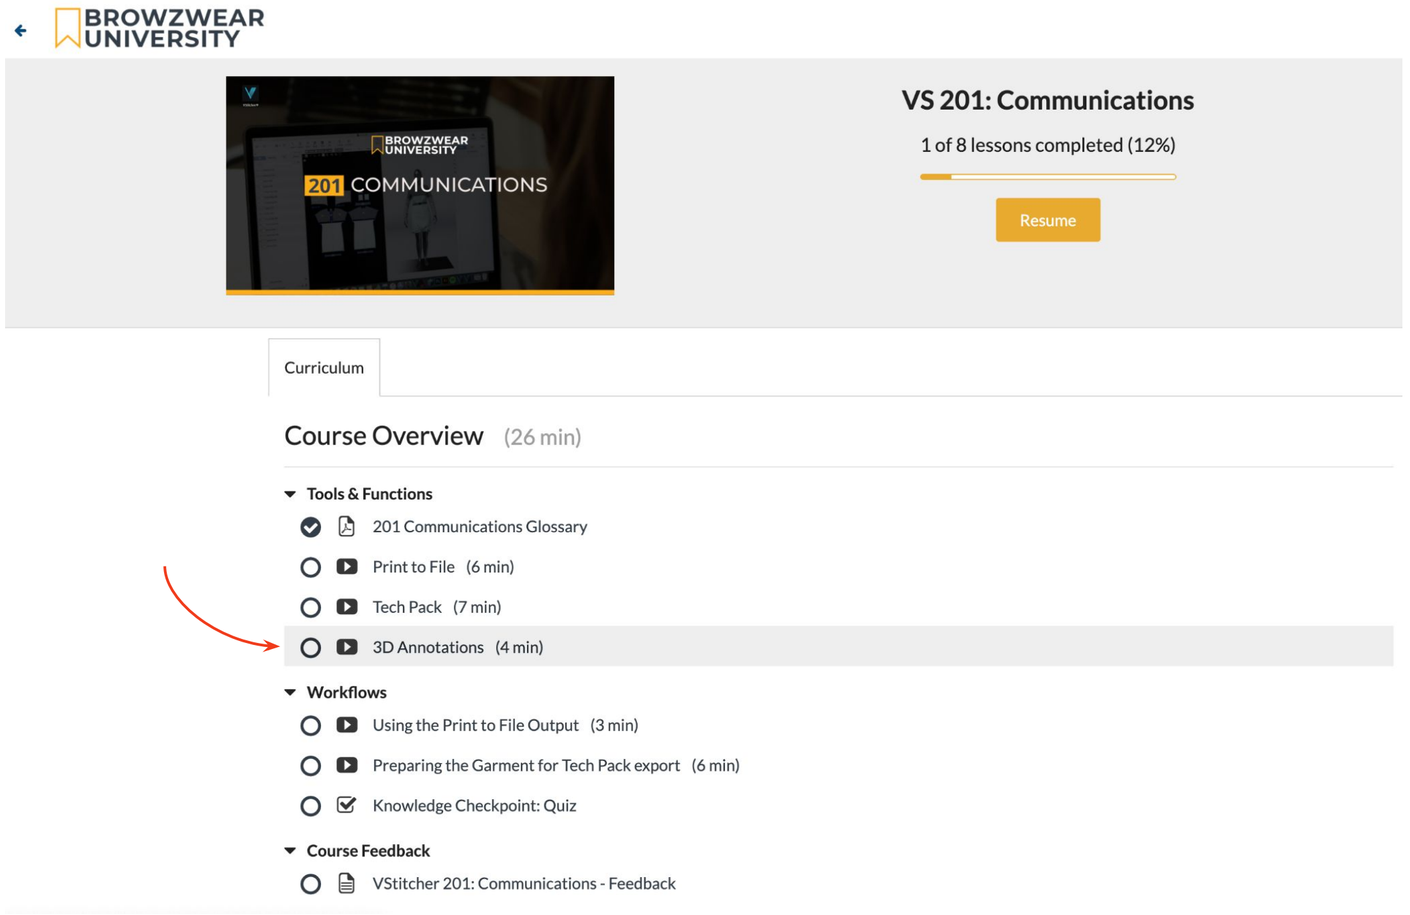
Browzwear 3D Annotations

Review Browzwear University Course 201: Communications

Lesson on “3D Annotations” to learn the process for commenting in the 3D Browzwear File



Sample File Versions

Workflow Example

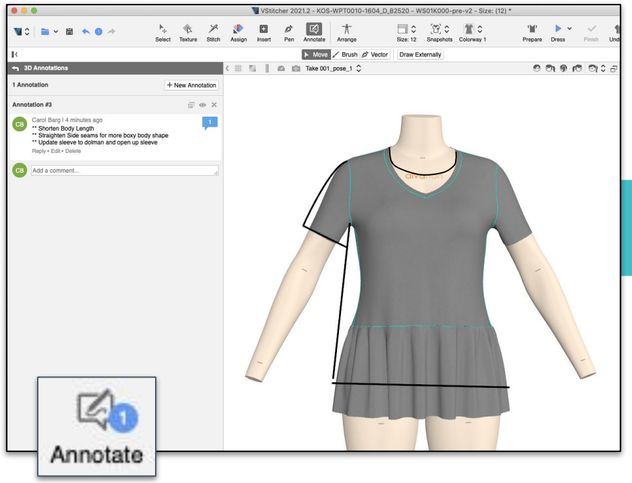
Kohl's Design Team sends Pre-Development Inspiration to the Vendor

**** Not through DASH ****

Use OnePLM or current process!

WS01K000-pre-v1.bw

Vendor sends first 3D Pre-Development Sample to Kohl's Design Team. This file would be labeled "V1" for Version 1.



WS01K000-pre-v2.bw

Kohl's Design Team sends second 3D Pre-Development Sample with comments in the 3D file to vendor for updates. This file would be labeled "V2" for Version 2.

WS01K000-pre-v3.bw

Vendor sends third 3D Pre-Development Sample with updates based on comments in the 3D file to Kohl's Design Team. This file would be labeled "V3" for Version 3.

***Make sure to update your version!**

If you try to upload a file with the same name and version as the original, you will get this pop-up to confirm before overwriting!
