KOHĽS

Contemporary Women may be ones to follow a trend. Emphasis could be on the eyes whether it's more lash or color to make them stand out. A smokey eye works well with a nude or neutral lip. A defined but neutral eye could have a pop of color on the lip. Soft, bouncy curls or sleek hair with a bit of texture.

UPDATED WOMENS

Updated Women are natural, never fussy. Makeup should accentuate the natural beauty of the model's face with a touch of color on the eyes or lips. Slightest bit of mascara to bring out the eyes.

There is an ease to the hair. Naturally tousled or pulled up.

TRADITIONAL WOMENS

Traditional Women are not overdone, but always "finished". Makeup is clean and natural with a bit more emphasis on the eyes and lips. Hair is a bit more "put together" whether it's down or pulled back in a low pony or chignon. Both makeup and hair should feel timeless.
