

# Instructions to Find a CP on Kohls.com

1. Go to Kohls.com, then use the search bar to look up your product.

2. Once you locate your product, click on the product to get to the product page.

3. Go to the URL. Look for the number directly after “www.kohls.com/product/prd-”. If your product is a collection of products, you will see a lower case “c” before the string of numbers.

#### EXAMPLE - CP ID is 3243768

Kohl's, Inc. [US] | <https://www.kohls.com/product/prd-3243768/womens-sonoma-goods-for-life-ribbed-cardigan.jsp?color=Black&prdPV=1>

#### HELPFUL TIPS

- CP IDs and collection IDs can both be entered into the CP ID field in K-Link.
- If the same image needs to be updated for multiple product pages, you will need to follow steps 1-3 to obtain each CP ID/collection ID from each product page.
- If you are unable to find your product(s) online, please work with the merchant buying team to obtain CP ID(s)/Collection ID(s).
