

Sample Indicator in K-Link

IMPORTANT!

The toggle is only to be used for samples that need to be shot by Kohl's photo studio.

Please do not use this toggle to indicate that you're sending ad samples.

Style Level Samples

If you are sending samples for **all colors for one style**, click the "All style's sample sent" toggle to orange as well as the toggles next to the color you'll be sending .

Customer Choice/Color Level Samples

If you are sending samples for **certain colors for a particular style**, select the "Samples Sent" toggle next to the color that you'll be sending. For the colors you are not expecting Kohl's to shoot, you will need to provide an image.

The screenshot shows the K-Link interface for Merchant Groups. The top navigation bar includes a home icon, Merchant Groups, and the specific merchant group: 5TH AND OCEAN_17_1903061600465281. Below the navigation bar, there are filters for DEPARTMENT (17 - NCAA), VENDOR (5TH AND OCEAN), BRAND (NBA), GROUP DESCRIPTION (5TH AND OCEAN_17_19030616...), ATTRIBUTE DUE (04-17-19), and IMAGES DUE (04-17-19). The main content area is divided into two tabs: Attributes and Images and Samples. The Images and Samples tab is active, showing a table with columns for Vendor Style, Images, and Comments. The table lists three items: Test601 (Wisconsin Badgers Tee), Customer Choice #: 14429765 (Vendor Color: RED, NRF Color: 600-RED), and Customer Choice #: 14429766 (Vendor Color: GRAY, NRF Color: 020-GREY). Each item has an 'All style's samples sent' toggle and a 'Samples sent' toggle. The 'All style's samples sent' toggle for Test601 is highlighted in orange, and the 'Samples sent' toggle for the red color is highlighted in green. An orange arrow points from the 'All style's samples sent' toggle to the 'Samples sent' toggle, and a green arrow points from the 'Samples sent' toggle to the 'Add Image' button. The 'Add Image' button is highlighted in orange.
