

Image Upload: Moving Images

If images with multiple colors were uploaded without the vendor color in the filename, they will populate at a style level and will need to be moved manually to the corresponding customer choice.

Hover over the images sitting at a style level. Click on the orange checkbox in the top left corner of the image(s) to select.

If there are multiple images for a color, you can select all images at one time.

Click the orange arrow next to the color choice box to move the selected image(s) to that color.

All colors must be moved to their color choices before submission, or an error message will appear and images will not be submitted.

Interface showing image upload and movement options for three product styles.

Style 1: XYY12345 Baby Blanket
CC: 3 | Images: 3 | Due: 06-28-18
