

KUFNER TEXTILE CORPORATION

Interlinings & Technical Textiles

GLOBAL SOLUTION PROVIDER

Kufner Holding GmbH is amongst one of the most reputable and respected companies focused in the production and distribution of interlining fabrics and technical textiles since 1862.

Kufner has prided itself in being innovators and trend setters in many of the interlining fabrics that are currently used in an array of industries ranging from apparel to automotive, aviation and accessories. With a global network of subsidiaries and partners,

Kufner is able to provide unmatched and unparalleled technical support and solutions to the latest fashion trends for a wide array of applications through our highly experienced and qualified specialists across the world. An international network of logistics and distribution points ensure timely delivery of products for your manufacturing needs.

Kufner's products are widely used in the manufacture of outerwear, menswear, children's wear, shirts, blouses, haute couture ladies wear and accessories. Our latest range of innovative products for activewear, sportswear and yoga wear are revolutionary. Apart from the wide array of application in apparel, Kufner's technical textiles are widely used in automotive and aviation industries.
