

Softlines & Home Textiles – Report Review Process

Overview

What and When Testing Should Be Completed?

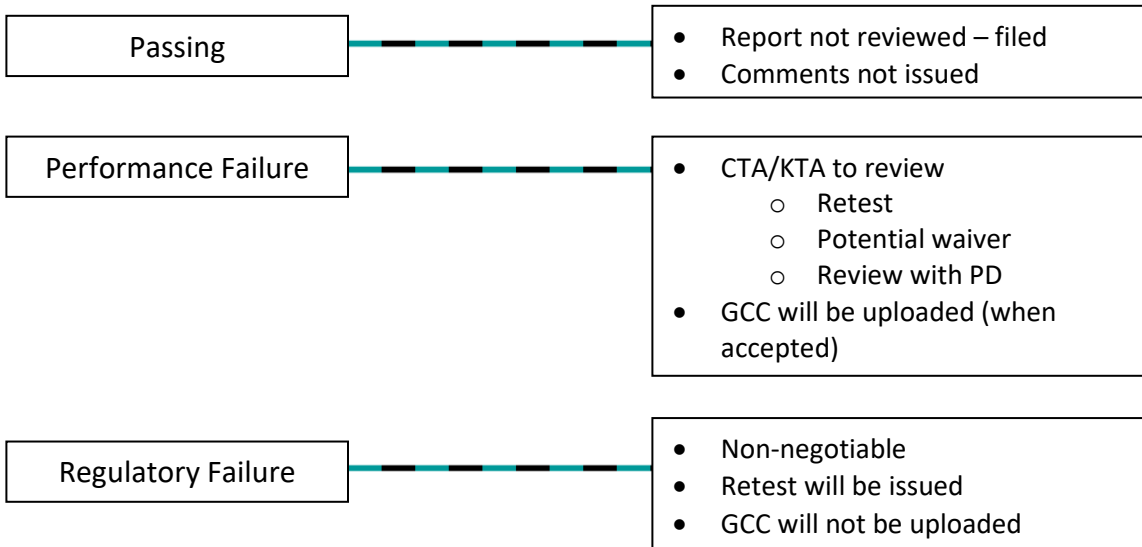

- Agent/Vendor will send a Test Request Form (TRF) filled out completely along with sample submission. Please also include partially completed GCC form.
- Reports are uploaded to onePLM (<https://oneplm.kohls.com/TradeEngines/>).
- Kohl's Testing Analyst (KTA) will request tested specimens as necessary for further review.
- If any product fails to meet Kohl's requirements, where a retest is required, the Agent/Vendor needs to resubmit corrective product to approved 3rd party lab.
- onePLM job aids can be found on K-Link > Resources > Private & Exclusive Brands > Performance Testing > onePLM.

Receiving Test Reports

- Effective January 20, 2020, labs will upload ALL test report results to onePLM.

Reviewing Test Reports

When KTA requests specimen to be sent for review, please send to the following address:

Menomonee Falls Office
Kohl's Department Stores
Attn: Product Integrity
N56 W17000 Ridgewood Drive – South Dock
Menomonee Falls, WI 53051
Phone: 262-703-7000

Product that fails testing due to regulatory/product safety requirements must be immediately corrected by the vendor and resubmitted to approved 3rd party labs.

Products unable to meet Federal or State regulatory/product safety requirements cannot be shipped to Kohl's Department Stores.

For all Softlines Test Report queries please email to Testing.Softlines@Kohls.com
