# Kohl's Care Label Policy

## Introduction

The vendor/manufacture is responsible for ensuring that all products are labeled with accurate and complete care instructions in accordance with all laws. It is the responsibility of the vendor/manufacture to verify that their textile mill can produce fabric that meets Kohl's care instruction requirements as follows. All care instructions must be verified through Kohl's approved third party testing lab.

Kohl's Care Label Policy provides 3 options of care instruction in each category i.e. fiber content, fabric construction and garment type. Option 1 and 2 enables you to choose the most practical and reasonable care instruction for the garment end use without Kohl's approval. Option 3 requires Kohl's approval.

**Deviations from Option 1 and 2 care instructions need to be approved by Kohl's Product Integrity (PI) Team at Testing.Softlines@Kohls.com prior to testing via email. Kohl's PI approval letter must accompany with your submission in order for the testing lab to proceed.** The following care instructions are Kohl's standards for apparel and textile accessories for testing purposes by a third party lab. Full care instructions should include washing, bleaching, drying, ironing and special instructions such as "wash with like colors."

## Care Instructions by Color

For key item programs, or programs of 200,000 units or more, care label instructions may vary according to colorway and approved Intertek test results. If the program is under 200,000 units, care instructions must be uniform across all colorways and reduced to the lesser care instructions approved by Intertek test results, i.e. use 'Do not bleach' over 'Only non-chlorine bleach when needed'.

## FTC Regulations

The U.S. Government Agency, Federal Trade Commission (FTC) is responsible for the Care Labeling of Textile Wearing Apparel Rules 16 CFR 423 and in conjunction with Care Symbol Guidelines from American Society for Testing and Materials (ASTM). The guidelines contained in Kohl's Private Brands Guide conform to the regulations established by the FTC and ASTM. It is the vendor's/manufacture's responsibility to remain with current FTC regulations and changes.

The FTC mandated that instructions for washing, bleaching, drying and ironing or for dry cleaning must be on the care label.

- Care labels provide complete instructions about regular care for the product, or provide warnings if the product cannot be cleaned without harm.
- Care label instructions, if followed, will cause no substantial harm to the product.
- If the harshest form of treatment will harm the product, an appropriate treatment must be specified (i.e.: machine wash warm, no bleach, tumble dry low, warm iron).
- The care labels remain attached and legible throughout the useful life of the product.

**Note: The FTC interprets missing or lack of care instructions as a statement that the product will not be harmed by the harshest form of treatment: machine wash hot water, chlorine bleach, tumble dry hot, hot iron.**

# Kohl's Care Label Policy

## Standard care label instructions and what instructions mean per FTC and ASTM

### I. Washing process

- “Machine wash”: Use any type of home-type washing machine. When no temperature is given, e.g., “warm” or “cold”, hot water up to 150°F (66°C) can be regularly used.
- Machine-wash “hot”: Set initial water temperature control at 112°-145°F (45°-63°C).
- Machine-wash “warm”: Set initial water temperature control between 87° to 112°F (31° to 44°C) (hand comfortable)
- Machine-wash “cold”: Set initial water temperature controls same as cold water tap up to 85°F (30°C).
- “Delicate cycle” or “gentle cycle”: Machine is set for slow agitation and reduced time.
- “Durable / permanent press cycle”: Machine is set for cold down rinse or cold rinse before reduced spinning.
- “Hand wash”: Garment may be laundered through the use of water, detergent or soap, and gentle hand manipulation.
- “Wash separately”: Alone / By itself
- “With like colors”: With colors of similar hue and intensity.

### II. Bleaching Process

- “Bleach when needed”: Any household laundry bleach may be used when necessary.
- “Only non-chlorine bleach when needed”: Use non-chlorine bleach only. Chlorine bleach should not be used.
- “Do not bleach”: No bleach may be used. The garment is not colorfast or structurally able to withstand any bleach.

### III. Drying Process

- “Tumble dry”: Use machine dryer. When no temperature is given, machine drying at a hot setting may be regularly used.
- Tumble dry “medium”: Set dryer at medium heat.
- Tumble dry “low”: Set dryer at low heat.
- “Durable press” or “permanent press”: Set dryer at permanent press setting.
- “No heat”: Set dryer to operate without heat.
- “Remove promptly”: When items are dry, remove immediately to prevent wrinkling.
- “Drip dry”: Hang dripping wet with or without hand shaping or smoothing.
- “Line dry”: After spinning in the washer, squeezing through wringer or squeezing by hand, hang damp from line or bar in or out of doors.
- “Dry flat”: Lay down horizontally for drying.

### IV. Ironing Process

- “Iron if needed”: Regular iron may be needed and may be performed at any temperature and with or without steam is acceptable.
- “Low heat iron” or “cool iron”: Regular ironing, steam or dry may be performed at a low temperature setting (230°F, 110°C).
- “Medium heat iron” or “warm iron”: Regular ironing, steam or dry may be performed at medium temperature setting (300°F, 150°C)
- “High heat iron” or “iron”: Regular ironing, steam or dry may be performed at high temperature setting (390°F, 200°C).
- “No steam” or “do not steam”: Steam in any form may not be used, but regular dry ironing at indicated temperature setting is acceptable.
- “Steam press” or “steam iron”: Use iron at steam setting and at the indicated temperature.
- “Iron damp”: Moisten articles before ironing.
- “Do not iron”: Item may not be smoothed or finished with an iron.

# Kohl's Care Label Policy

## Standard care label instructions and what instructions mean (continued)

### V. Dry Cleaning Process

- "Dry clean": Dry clean, any solvent, any cycle, any moisture, and any heat. The process may include use of organic solvents such as petroleum, fluorocarbon, or perchlorethylene, moisture addition up to 75% relative humidity, hot tumble drying up to 160°F (71°C) and restoration by steam press or steam-air finishing.
- "Short cycle": reduced or minimum cleaning time, depending upon solvent used.
- "Minimum extraction": least possible extraction time.
- "Reduce moisture" or "Low moisture": decreased relative humidity.
- "No tumble" or "Do not tumble": do not tumble dry.
- "Tumble warm": tumble dry up to 120°F (49°C).
- "Tumble cool": tumble dry at room temperature.
- "Steam only": Employ no contact pressing when steaming.
- "No steam" or "do not steam": Do not use steam in pressing and finishing.
- "Dry clean, low heat": Reduced drying temperature.
- "Do not dry clean": Garment may not be commercially dry-cleaned.
- "Dry clean only": Garment may not be machine washed, can only be dry cleaned.
- "Professional leather clean" or "suede leather clean": Have to be cleaned only by a professional cleaner who has special leather care methods.
- "Professionally dry clean" should be used when the normal dry cleaning process must be modified to safely dry clean the product. "Professionally dry clean" is not an adequate care instruction. It must be accompanied by the modification(s) necessary to make the dry cleaning process safe.

## **Supplemental Labeling**

The following may be added or changed in Option 1 and 2 Care Instruction without Kohl's Approval if appropriate based on garment end product:

### **Wash**

- **Machine Wash Cold**
- **Machine Wash Warm**
- **Gentle Cycle**
- **Delicate Cycle**

### **Dry**

- **Tumble Dry Low**
- **Tumble Dry Medium**

### **Iron**

- **Cool Iron**
- **Warm Iron**
- **Steam Iron if Needed**
- **Do Not Iron**
- **Do Not Iron Decoration**
- **Iron on Reverse Side Only**

### **Special (could be added wherever needed)**

- **Wash Inside Out**
- **Wash and Dry Inside Out**
- **Do Not Wring or Twist**
- **Remove Promptly**
- **Turn Garment Inside Out**
- **Reshape**

For all Over-dyed Fabrics AND Garments, the following must be added wherever needed to the standard care instructions:

#### **Wash inside out before wearing**

For all Garments with Removable Accessories (ex. Belt, jewelry, faux fur, and padding), the following must be added to the beginning of the standard care instructions:

#### **Remove belt (jewelry, etc.) before washing OR dry-cleaning**

For all Screen Printed, Decorated/Embellished Garments (embellishments or embroidered appliqués), the following must be added wherever needed to the standard care instructions:

#### **Wash inside out before wearing**

**Gentle cycle**

**Do not iron decoration**

# Kohl's Care Label Policy

## Knits:

Fiber Content	Option 1	Option 2	Option 3 (Need Kohl's Approval)
100% Cotton	Wash before wearing. Machine wash warm with like colors, Only non-chlorine bleach when needed, Tumble dry low, Warm iron if needed	Wash before wearing. Machine wash cold with like colors, Only non-chlorine bleach when needed, Tumble dry low, Warm iron if needed	Wash before wearing. Hand wash cold Only non-chlorine bleach when needed Flat dry Warm iron if needed
Cotton/Synthetic Blends	Wash before wearing. Machine wash warm with like colors, Only non-chlorine bleach when needed, Tumble dry low, Warm iron if needed	Wash before wearing. Machine wash cold with like colors, Only non-chlorine bleach when needed, Tumble dry low, Warm iron if needed	Wash before wearing. Hand wash cold Only non-chlorine bleach when needed Flat dry Warm iron if needed
Cotton/Spandex Blends	Wash before wearing. Machine wash warm with like colors, Only non-chlorine bleach when needed, Tumble dry low, Remove promptly, Cool iron if needed	Wash before wearing. Machine wash cold with like colors, Only non-chlorine bleach when needed, Tumble dry low, Remove promptly, Cool iron if needed	Wash before wearing. Hand wash cold Only non-chlorine bleach when needed Flat dry Cool iron if needed
Synthetics (100% or blends)	Wash before wearing. Machine wash warm with like colors, Only non-chlorine bleach when needed, Tumble dry low, Remove promptly Cool iron if needed	Wash before wearing. Machine wash cold with like colors, Only non-chlorine bleach when needed, Tumble dry low, Remove promptly Cool iron if needed	Wash before wearing. Hand wash cold Only non-chlorine bleach when needed Flat dry Cool iron if needed
100% Rayon  <b>** Flat Dry can be replaced with Line Dry when appropriate**</b>	Wash before wearing. Machine wash cold with like colors, Gentle cycle, Only non-chlorine bleach when needed, Flat Dry, Cool Iron If Needed OR Steam Iron if Needed	Wash before wearing. Hand Wash Cold Only non-chlorine bleach when needed, Flat dry, Cool iron if needed OR Steam Iron if needed	Wash before wearing. Hand wash cold Only non-chlorine bleach when needed Flat dry Cool iron if needed OR Steam Iron if Needed For best results, Dry Clean
Rayon Blends with Synthetics	Wash before wearing. Machine wash cold with like colors, Gentle cycle, Only non-chlorine bleach when needed, Tumble dry low, Remove promptly Cool iron if needed	Wash before wearing. Machine wash cold with like colors, Gentle cycle, Only non-chlorine bleach when needed, Flat dry, Cool iron if needed	Wash before wearing. Hand wash cold Only non-chlorine bleach when needed Flat dry Cool iron if needed
100% Silk or Silk Blends  (washable)	Wash before wearing. Machine wash cold with like colors, Gentle cycle, Do not bleach, Dry flat, Cool iron if needed. For best results, dry clean	Wash before wearing. Hand wash cold, Do not bleach, Line dry, Cool iron if needed, For best results, dry clean	Dry Clean Only
100% Silk or Silk Blends  (non-washable)	Dry Clean		

***Fabric Types:*** Jersey, Interlock, Rib, Pique, Fleece, French Terry, Waffle, Raschel, Tricot, etc.

# Kohl's Care Label Policy

## Knits

*Fabric Types:* Jersey, Interlock, Rib, Pique, Fleece, French Terry, Waffle, Raschel, Tricot, etc.

Fiber Content	Option 1	Option 2	Option 3 (Need Kohl's Approval)
100% Wool and Wool Blends  (washable)	Wash before wearing. Machine wash cold with like colors, Gentle cycle, Do not bleach, Dry flat, Steam iron if needed, For best results, dry clean	Wash before wearing. Hand wash cold, Do not bleach, Line dry, Warm iron if needed, Do not steam	Dry Clean Only
100% Wool (not washable), Cashmere	Dry clean preferred		
Velvet / Velveteen and Velour	Wash before wearing. Machine wash warm with like colors, Gentle cycle, Only non-chlorine bleach when needed, Tumble dry low, Remove promptly, Lightly steam iron if needed	Wash before wearing. Machine wash cold with like colors, Gentle cycle, Only non-chlorine bleach when needed, Tumble dry low, Remove promptly, Lightly steam iron if needed	Wash before wearing. Hand wash cold Only non-chlorine bleach when needed Flat dry Lightly steam iron if needed
Pigment dyed, pigment print, garment dyed, sulfur dyed, indigo dyed, stonewashed, sand washed, enzyme washed etc.	Wash before wearing. Wash inside out Machine wash cold with like colors, Only non-chlorine bleach when needed, Tumble dry low, <b>Warm or Cool</b> iron if needed  (choose appropriate iron temperature based on fiber content/print)		Wash before wearing. Hand wash cold Only non-chlorine bleach when needed Flat dry <b>Warm or Cool</b> iron if needed  (choose appropriate iron temperature based on fiber content/print)

NOTE- Ironing instruction: Can be low heat (cool), medium heat (warm) or high heat (hot); with steam or no steam (dry) and must be one that best restores the appearance of fabric/garment to the original state. Typically, for cotton, linen, rayon, and ramie, a warm iron would be appropriate, for polyester, nylon, silk, and wool, a cool iron would be appropriate.

# Care Symbols approved by FTC and ASTM

(Approved for Kohl's intimates & Foundations Only)

## CARING FOR YOUR CLOTHES

WASH			
<b>MACHINE WASH CYCLE</b>		 Hand wash	<b>WARNING SIGNS</b>
 Normal	 Permanent Press/ wrinkle resistant		
<b>WATER TEMPERATURE</b>		 Do not wring	
 Hot (50°C/120°F)	 Warm (40°C/105°F)		

BLEACH		
<b>BLEACH SYMBOLS</b>		<b>WARNING SIGNS</b>
 Any bleach (when needed)	 Only non-chlorine bleach (when needed)	
		 Do not bleach

DRY			
<b>TUMBLE DRY CYCLE</b>			<b>WARNING SIGNS</b>
 Dry	 Normal	 Permanent Press/ wrinkle resistant	
<b>HEAT SETTING</b>			 Do not dry (used with do not wash)
 High	 Medium	 Low	
<b>SPECIAL INSTRUCTIONS</b>			
 Line dry/ hang to dry	 Drip dry	 Dry flat	 In the shade

IRON			
<b>IRON — DRY OR STEAM</b>			<b>WARNING SIGNS</b>
 Iron	 High	 Medium	
 Low			 Do not iron
			 No steam

DRYCLEAN			
<b>DRYCLEAN — NORMAL CYCLE</b>			<b>WARNING SIGNS</b>
 Dryclean	 Any solvent	 Any solvent except trichloroethylene	
 Petroleum solvent only			 Do not dryclean
<b>PROFESSIONALLY DRYCLEAN</b>			
 Reduce moisture	 Short cycle	 No steam finishing	 Low heat

NOTE: As a minimum, laundering instructions include, in order, four symbols: washing, bleaching, drying and ironing. Drycleaning instructions include one symbol. Additional symbols or words or both may be used to clarify the instructions. The water temperatures listed above are provided as a guideline. Actual water temperatures obtained in the home depend on the washing machine settings (hot, warm, cold), regional water supply temperatures, and water heater settings.
