- Compliance fees may increase or decrease based on a vendor's scorecard performance. Vendors with "A" or "B" level performances will see decreased compliance fees, for rule codes listed below; vendors with "D" or "F" level performances will see increased compliance fees, for rule codes listed below
- Each individual notification will reflect the adjusted dollars, if applicable

Fill Rate Process

Domestic Fill Rate

- Domestic vendors must meet a 97% (at a SKU per PO level) fill rate for all PO types
- Fill Rate is assessed based on the PO start ship date; changes made on or after the PO start ship does not exempt from Fill Rate detection
- Violations will be issued for POs not meeting the requirements, at \$150 plus 10% of unfulfilled units cost
- Disputes will not be accepted for fill rate violations that result from split/late shipments

Fill Rate Replenishment (“IN” PO Type)

- After an Inforem PO's SKU level detection & violation occurs, we will follow with 6 weeks of zeroed chargebacks for that SKU
- The chargeback will begin again at the SKU level on the 7th week

Transportation Compliance Notifications

Email Notification of Transportation Compliance Charges

- Vendors may receive Transportation charge notifications through Kohl's normal compliance process that were previously sent via post-audit notifications. The charge notifications are related to the violations listed below:
 - Late shipments
 - Failure to consolidate
 - Consecutive day shipments
 - Back order freight
- Kohl's intent is to minimize, but not completely eliminate, post-audit detections through this process. Typical notifications will be transmitted between 60 and 90 days of violation event(s). Vendors will continue to see post-audit notifications / detections
