

# **KOHL'S**

## **International Shipping Requirements**

This document includes: International Routing, SOLAS Expectations, Document Turnover Timing Matrix, and Freight Forwarder Contact Information.

## Contents

Kohl's International Shipping Requirements	3
SOLAS Expectation	6
Document Turnover Timing Matrix	6
International Freight Forwarders Contacts, Yusen	7
International Freight Forwarders Contacts, Expeditors	11

## **International Shipping Requirements**

This section provides shipping instructions for those orders where the transfer of ownership from the vendor to Kohl's is at a foreign location and Kohl's is responsible for the payment of ocean freight and U.S. Customs entry fees.

- Kohl's requires all import vendors (Li & Fung, Letter of Credit and Direct Import) to ship cartons with GS1-128 carton labels
- Kohl's requires all import vendors (Li & Fung, Letter of Credit and Direct Import) to transmit a factory ASN to the appropriate Kohl's Freight Forwarder

### **Shipment Forwarding Information**

- Forwarding information for overseas FOB (Free on Board/Ship Locations) points are provided in the letter of credit instructions or with the Kohl's purchase order
- Kohl's requires all import vendors (Li & Fung, Letter of Credit and Direct Import) to transmit a factory ASN to the appropriate Kohl's Freight Forwarder
- Letter of credit/direct import vendors may utilize CY (factory loaded containers)
- Contact the forwarder at origin for cutoff times and schedules

### **Shipping Process**

- Kohl's x-factory windows indicate the time of delivery required at origin to either the overseas consolidator or origin terminal
- Orders are required to ship at one time and complete
- Deviation from the planned x-factory window requires buyer approval
- Overage outside of tolerance requires PO update & new EDI transmission: If the PO is less than 100K units, tolerance is 3%; If the PO is greater than 100K units, tolerance is 2%
- Kohl's requires all import vendors (Li & Fung, Letter of Credit and Direct Import) to ship cartons with GS1-128 carton labels

### **Booking**

- Booking with the freight forwarder is required fourteen (14) days prior to the start of the x-factory window to ensure vessel space and equipment availability
- Vendor must submit correct and complete SI documents to Kohl's appointed consolidator by the consolidator's SI submission cutoff. Required documents include:
  - Container load plan
  - Packing list
  - Shipment Release Authorization (if applicable)
- Failure to submit these documents by the consolidator's SI submission cutoff could result in delayed shipments and/or chargebacks.

### **Export License**

- Vendor must submit a correct and complete export license (when applicable)
- Export license must be submitted to Kohl's appointed consolidator before the forwarder will release carrier equipment to the vendor
- Kohl's appointed consolidator will verify the export license quantity against the booking quantity

### **ASN – Advance Shipment Notice**

- Vendor must submit proper ASN level information including GS1-128 carton records and related transmitted data to Avery Dennison based on pre-determined cutoffs
- Failure to provide accurately labeled cartons and related data will result in a penalty to the vendor

Ship Mode	Production Countries	ASN Submission Timing
Ocean - CFS	All	Before cargo arrives to freight forwarder warehouse
Ocean - CY	All - except Central America, Mexico, Haiti, Dominican Republic	Before sailing date
	Central America, Mexico, Haiti, Dominican Republic *Central America includes Guatemala, Belize, Honduras, Nicaragua, Costa Rica, Panama	Before cargo arrives to freight forwarder warehouse
Air	All	Before cargo arrives to freight forwarder warehouse

**Avery Dennison InfoChain Express (ICE) Application:**

- Import vendors and/or factories are required to use a software application created by Avery Dennison called InfoChain Express (ICE) to fulfill these requirements
- Avery Dennison is the sole provider for this requirement
- Vendors will not be able to use any other carton label or ASN application for Kohl's import orders
- Avery Dennison InfoChain Express (ICE) application provides vendors the ability to:
  - Print carton labels
  - Perform shipment scanning
  - Generate a factory ASN as required by Kohl's
- Vendors need to contact Avery Dennison directly to find out details
  - Specific solution that best meets their company's needs and the financial costs involved
  - It takes approximately 8 weeks to get set up and running on one of the Avery solutions
- Once the vendor has chosen a solution and signed up with Avery Dennison, please refer to Kohl's Standard Operating Procedures (SOP) for specific details regarding Kohl's requirements, including compliance information, pertaining to the ICE system
- The SOP document is located on the Kohl's ICE portal at <http://network.informnexus.com/>
- Kohl's requires vendors to get set up, trained and certified on the Avery Dennison ICE application within eight weeks after the first import Purchase Order is approved in Kohl's system
  - Once the eight week period is over vendors are required to label their import cartons
  - Provide a factory ASN to the freight forwarders

**Listing of Avery Representatives:**

● **Americas**

Tel: (1) 305 726 0400

Email: ICE\_HELP.Framingham@averydennison.com

● **EMEA**

Email: Tiziana.Tay@EU.averyDennison.com

● **ASIA**

Tel: 852-26239669 (HK); 86-20-34680923 (CN)

Email: ICE\_Support@ap.averydennison.com;

**Compliance Information:**

- Vendors must be compliant with Kohl's import rules and requirements
- Failure to be compliant with these rules and requirements may result in vendor chargebacks
- New vendors will not be charged for non-compliance during the eight week set up period
  - This 8 week period begins when the first import purchase order is approved in Kohl's system
- Once the 8 week set up period is over, Kohl's will not exempt vendors and/or factories from:
  - Shipping purchase orders without GS1-128 carton labels

- o Sending a factory ASN

**Additional Information:**

- If you should have any questions regarding this information contact:
  - o one of the listed Avery Dennison representatives
  - o [edimio@kohls.com](mailto:edimio@kohls.com)

**Loading CY**

- Vendor must load container per the submitted load plan in PO/UPC order within the container
- Failure to load the container in PO/UPC order will result in additional handling fees from the U.S. de-consolidator, which will be charged to the shipping vendor/factory
- The vendor cannot substitute POs or cartons
- Failure to follow this requirement could impact Kohl's ability to clear merchandise through U.S. Customs timely and accurately. Containers loaded with discrepancies versus the stated load plan will be subject to a penalty.
- Purchase order is not allowed to be split into two containers unless the volume exceeds one container
- Purchase order is not allowed to ship on more than one vessel
- Partial shipment is not allowed unless approved by Kohl's Transportation department

**Loading CFS**

- Kohl's freight forwarders provide consolidation services. Please see page 7-16 for forwarder contact information by origin
- Vendor must have qualified administrative staff available during normal CFS operating hours to resolve issues
- Failure to have available resources at the vendor's location could result in delayed shipments and a penalty assessed to the vendor
- Vendor must provide all necessary paperwork and freight based on published CFS cutoffs for the CFS freight
- Commercial documents must be turned over to the freight forwarder. See page 6.

Please note that for several origins Kohl's has been settling THC/ORC (Terminal Handling Charges) on behalf of vendors for CFS shipments. Beginning on 2/1/2016 this will be assumed by the vendors, as standard industry best practice and according to current FOB Incoterms. Please note that this will be effective for all deliveries starting February 1, 2016. Questions please email [TR-Imports@kohls.com](mailto:TR-Imports@kohls.com).

**Loading Requirements**

- Factories are allowed to load their own containers (CY shipping) as long as Kohl's loadability requirements are met
  - o 20' Dry 28 CBM's - Can only be used when dictated by weight
  - o 40' Dry 58 CBM's
  - o 40' High Cube 68 CBM's
  - o 45' High Cube 78 CBM's

If the total CBM's do not meet the minimum loadability requirements, either the entire shipment or the portion of the shipment remaining must be processed through Kohl's nominated consolidation warehouse. Using a 20' Container for reasons other than weight will result in a \$500 charge. Failure to follow these requirements will result in dead freight charges equal to the portion of the container not utilized and possible loss of CY (container yard) privileges.

## **Air Shipments:**

### **Supplier's responsibility**

- Booking air with Yusen
- Using Yusen eInvoice to get KDC from Li & Fung
- Prepare Yusen eInvoice (with actual receiving data) and upload KDC in Yusen Vantage portal
- Settle Yusen local charges and Air Freight Forwarder local charges, then, collect original FCR from Yusen
- Submit Yusen eInvoice and original FCR to Li & Fung to get payment

### **Timeline:**

- 1 day or before Cargo Delivery to air freight forwarder, supplier needs to prepare eInvoice in Yusen Vantage Portal and send to Li & Fung to get the KDC
- After cargo deliver, supplier needs to prepare the Factory ASN.
- Supplier will go to Yusen Vantage portal to submit the eInvoice and upload KDC.
- Supplier settles Yusen local charge & collect original FCR .

## **SOLAS Expectation**

**Overview** – On July 1, 2016 a new SOLAS (Safety of Life at Sea convention of the International Maritime Organization) amendment takes effect requiring shippers whose name appears on the bill of lading to verify the gross mass of a packed container when tendering the container to the ocean carriers and terminals. Each of the 170 countries that are signatories to SOLAS will be tasked with ensuring the gross mass of containers is verified, without which the boxes can legally not be loaded on board a ship.

### **Sources – Documents – References**

[http://www.worldshipping.org/industry-issues/safety/SOLAS\\_CHAPTER\\_VI\\_Regulation\\_2\\_Paragraphs\\_4-6.pdf](http://www.worldshipping.org/industry-issues/safety/SOLAS_CHAPTER_VI_Regulation_2_Paragraphs_4-6.pdf) - SOLAS Regulation

[http://www.worldshipping.org/industry-issues/safety/faqs/SOLAS\\_VGM\\_Industry\\_FAQs\\_Dec\\_2015\\_US\\_letter\\_WEB.pdf](http://www.worldshipping.org/industry-issues/safety/faqs/SOLAS_VGM_Industry_FAQs_Dec_2015_US_letter_WEB.pdf) - SOLAS FAQ

[http://ocema.org/VGM\\_SOLAS.html](http://ocema.org/VGM_SOLAS.html) - OCEMA VGM Best Practice and VGM Process Map

### **Kohl's Understanding**

- Packed Containers have to be weighted prior to loading aboard the ship
- The shipper will be responsible for obtaining the verified gross mass (VGM)
- Without VGM submitted by the VGM cutoff, the container will not be loaded

### **Kohl's Expectations for CY**

- Shippers will implement procedures to Verify VGM prior to 1 July 2016
- Shippers will Communicate VGM
  - To Yusen through Griffin Supplier Portal
  - To Expeditors through VGM document upload (OMB / Expo Booking)
- Required Elements
  - Carrier Booking Number or BL Number
  - Container Number
  - VGM Weight
