   Wearer's left or right up can be requested

2. **Half-fold widthwise**
   Wearer's left or right upper can be requested

3. **Half-fold widthwise**

4. **Square fold**

Folding Options

Standard Bottoms Folds

1. **Tri-fold**
   Back facing

2. **Tri-fold**
   Front facing

3. **Half-fold**

4. **Shorts or Seasonal Bottom Fold**

Note: *All label placement should follow the same guidelines as outline on the bottoms pages.*

Label Placement

Loop Labels

1. **If there is a clean center back:**
   Insert label into neck seam, binding edge or back neck tape.
   Center from left to right on garment

2. **Size/COP Label:**
   Place 1/8" to the right, on the right side of main label

Attach as indicated by Technical Design

Please use this as a guideline for placement.

See Tech Speck for actual Label placement and execution
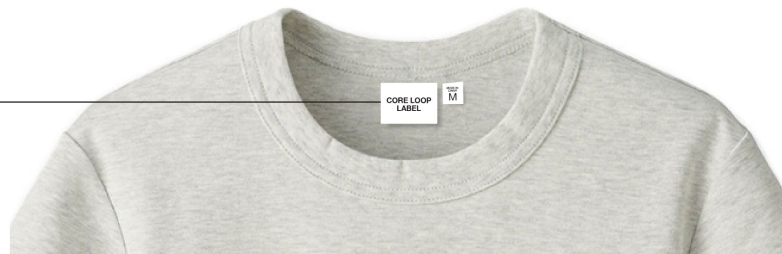

Label Placement

Endfold Label

1. **Place label 1/2" below the center back neck seam, binding edge, or back neck tape.**
   Center from left to right on the garment

2. **Place label at the center back neck seam, binding edge, or back neck tape.**

3. **Size/COP Label:**
   Stack beneath and attach to main label

4. **Place fit/program label 1/8" below the core endfold label**
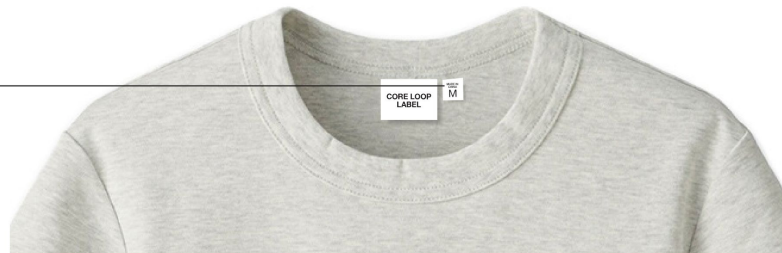

Attach as indicated by Technical Design

Please use this as a guideline for placement.

See Tech Speck for actual Label placement and execution
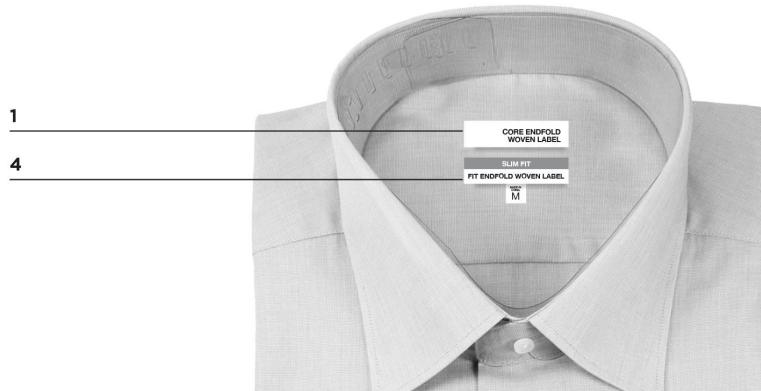

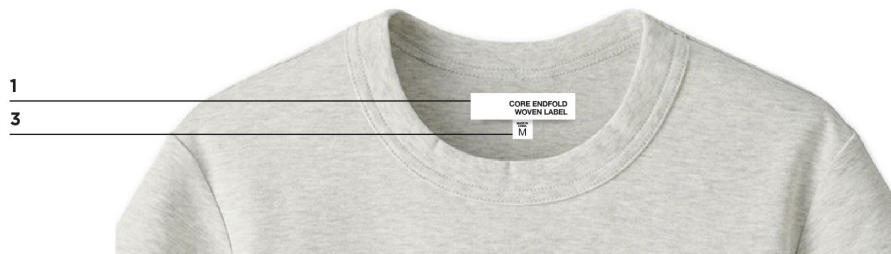

Label Placement

Patch Label

1. **Place label 1/2" below the center back neck seam, binding edge, or back neck tape.**
   Center from left to right on the garment

2. **Place label at the center back neck seam, binding edge, or back neck tape.**

3. **If there is center back detail (zipper, seam, etc.):**
   Place 1/2" below the back neck and 1/2" from the center back, on wearer's left

4. **Size/COP Label:**
   Stack beneath and attach to main label

Attach as indicated by Technical Design

Please use this as a guideline for placement.

See Tech Speck for actual Label placement and execution
