Leap Navigation
(Internal & External)

one

Leap Navigation
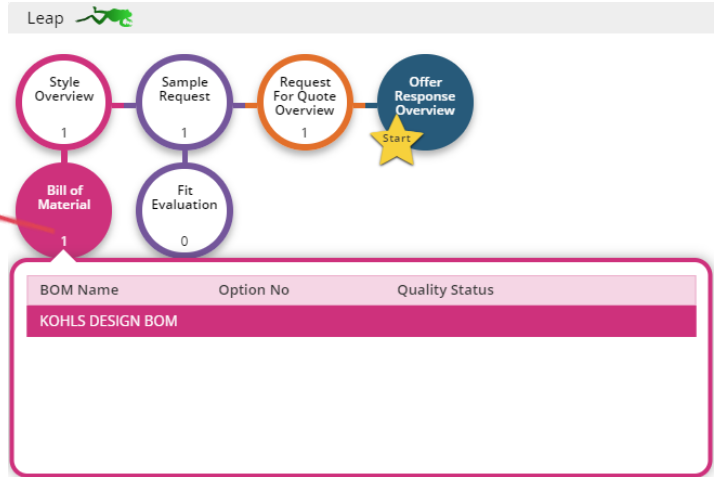

How To **Starting March 2019 the Tech Spec Overview will be re-named the Style Overview.**

Leap is used to jump between related documents.

NOTE:
Leap menu options are displayed based on the user's role in the system.

1. Click the **Leap** button within the style or development choice.

2. Hover over the circle representing the document to be viewed. Note: Click the item to be viewed.

HINT:
The small number on the Leap screen indicates the number of documents found in that grouping.

Back Button

Use the Back button to return to previously viewed Leap-related screen(s). The Back button can only be used if you're in the leap function, and need to navigate to a previously-leaped screen.

1. Click **Back** button to go back one screen.

   -OR-

1. Click and hold the **Back** button for a list of previously visited screen(s).
2. Click a screen from the list.
