Style Overview External

1. Log into onePLM.
2. Click the **Style No** link found in the Recently Viewed Documents area. Or, initiate a search for the Style, using **Style Overview** from the left navigation panel.
3. Clicking the Style No displays the Style Overview Product Overview screen. From here, it to view, edit, and add details to the Style simply by clicking the tabs, links, or Leap, as shown below.
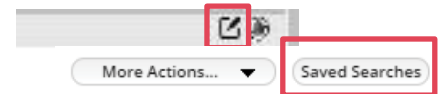

Overview Tab:	Displays Style details, Hierarchy information that includes season, brand, colorway information, production details, etc., and the Actors involved with development of this style. If the Base Request No. field is blank, this indicates it is a base style where the technical specifications reside (or the style was created after March 2019).
BOM Tab:	BOM (Bill of Materials), also referred to as the "trim sheet", contains lists of items included in the development of this style.
Samples Tab:	Initiate requests for Samples and track their delivery here.
Attachments Tab:	Navigate to the Attachments tab for Trim Sheets, Design Sketches, Style Inspiration, Photos, and Patterns.
Design Intent Tab:	Design Intent tab includes technical sketches for this style.
Constructions Tab:	Construction standards, like number of buttonholes, use of elastic, hanger loops, etc., are listed here.
Instructions Tab:	Details like Comments and Status updates for labels and packaging placement are found in this tab.

Standards Tab:	View minimum construction Standards here. It is also possible to print .pdf versions of these details from this screen. (Note: Apparel standards will auto-populate this tab; Home standards will auto-populate by division)
POM Tab:	POM (Points of Measure) information is provided here.
Change Tracking Tab:	View the information found in the Change Tracking tab, with respect to all updates and changes that have been made to the style. Additional search options are presented making it easier to jump to specific types of information.
View Quote Button:	Clicking the View Quote link takes you to the RFQ of the associated style or displays a listing of additional styles affiliated (linked) with this one. Click each style link to view the RFQ details.
View Offers Button:	Clicking the View Offers link takes you to all offer lines of the associated style, separated by dev choice suffix.
View Submit Requests Button:	Clicking this link takes the user to a list of all Submits that are linked to this style. Check here for available, approved Submits, prior to requesting Submits from the BOM.
Style Overview Report:	Clicking the Style Overview Report link opens a new window that provides options for printing various sets of informa- tion regarding this style. User is also presented with paper size selection, too. When all selections have been made, click Generate Report.
More Actions Dropdown list:	Selections include: Add to Favorites, Refresh, Change Alert, Style Overview/Fit Active (prints the full Style Overview Report plus the Fit Eval for the current sample only). Style Overview/Fit All. (prints the full Style Overview Report plus the Fit Eval for all samples)
