

# Packaging Capabilities

To update your packaging capabilities, click the “Profile” link under your user name and then click on the “Add/Modify” button.

Enter in Vendor, Department and Subclass information. Your choices will be based on the vendor dropdown choice, or combination of vendor and department. Click “Continue”.

Update Store Channel and Ecom Channel preferences. Click “Finish” when completed.

A green success message will appear when the packaging capabilities have been updated successfully.
