

Selecting a Ticket Maker: How to & Troubleshooting

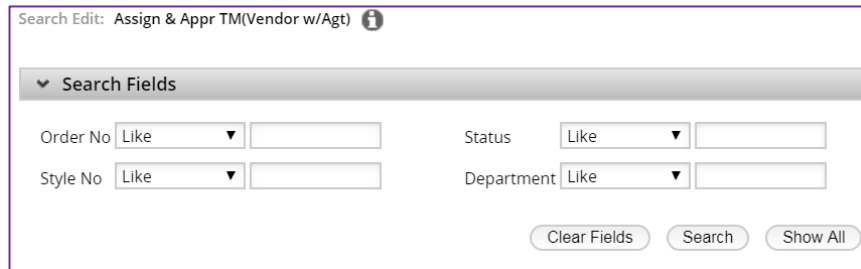

How to Select

1. Select the **Assign & Appr TM** query on your dashboard

2. Enter in search criteria
3. **Search**

4. Click on the purchase order hyperlink

5. Select the **Ticket Maker**
* Use the magnifying glass icon to search and select
6. Set the **Ticket Maker Status** to "Approved"

Troubleshooting

I: There are no selections to choose from / My desired ticketmaker is not a selection

A: Email KT-PDadmin@kohls.com and include: PO #'s and name of ticketmaker you'd like to select

I: The ticket type is incorrect

A: Verify with your Kohl's Product team what the correct ticket type is. What is labeled "ticket type" on this screen, corresponds to the "integrated hangtag or joker" on the style's BOM. If the ticket type displayed is truly incorrect, **take a screenshot of the below and send to your Kohl's Product team, asking they follow the instructions**

I: I'm unable to find the PO in onePLM

A: Verify that you have received the EDI'd PO. If not, contact your Kohl's Product team to inquire when the PO will be EDI'd. If you have received, **take a screenshot of the below and send to your Kohl's Product team, asking they follow the instructions**

To Kohl's PD Team,

I am unable to complete my ticket order process, and believe the root cause is a piece of missing or incorrect data on the PO.

Please ask the merchant specialist to review, and correct (or re-select) the field "Ticket Type" in MDM, then re-EDI the PO(s).

See attached for a list of PO's I am having an issue with.
